

A Wellness Services Building Is Needed By Dog Rescuers

*No Cost, BUT,
We Need Your Co-operation*

Dear Pet & Home Owner,

I write to let you know that I have a pet and I appreciate the work being done by the team of people at Dogway Dog Rescue Society. A group that has helped approximately 800 abused and neglected dogs in the past 4 years.

I want to help them meet their goal to build a new dog wellness facility in the Mission area B. C. A building of approx. 5000 square feet (+/- \$250,000.) to enable the society to serve the many dogs in need. The team members will be busy and they'll need our financial support.

As a Realtor I specialize in selling and managing properties at Royal LePage Sterling Realty. **We make the buying & selling process simple, and easy for the owner.** As proof I can say our team of 6 realtors hear the same story from past customers and ongoing clients. We've sold thousands of homes—120 last year. People work with us because of our knowledge and expertise.

A property purchase usually requires financing. As a Mortgage Broker with VERICO Complete Mortgage Services I can provide a complete mortgage service at discount rates for any real estate need - refinancing, debt consolidation, or a purchase.

We need to help the Team provide wellness services.

All we need is your co-operation. Allow me to make arrangements for your next real estate transaction. Or, to renew or provide new financing, and I'll make a donation in your name. Every transaction has a broker fee. Most are paid by the seller/ lender and part of it can be used to make a donation to the wellness fund for Dogway Rescue Society.

Each donation made on your behalf will be in your name.

Let's all support the society to build a wellness building for needy dogs.

Sincerely,

Bill Babcock
